

DoIT Operations Monthly Report

Published May 18, 2022

GARTNER BENCHMARKS

Benchmark	2020 (Mean)	2021 (Median)
Abandonment Rate	5.1%	4%
Cost per Contact	\$17.90	\$19.80
Cost per Endpoint	\$1,078	\$1,193
Endpoints per Technician	499	212
First Contact Resolution Rate	74%	71%
Linux Servers per FTE	268.0	234.0
Windows Servers per FTE	279.0	293.0

Factors influencing data this month; As identified and provided by data owners.

Notes defining and providing context to the data.

NOTE: Help Desk Gartner benchmarks are for Medium Environments (65K-170K Handled Contacts per year), Departmental Support Gartner benchmarks are for Small Environments (<13K total computing devices) from 2021 and 2022; 2020 used the overall average, and Solutions Engineering Gartner benchmarks are using the overall median.

2022 Gartner benchmarks are under review to include in the report.

DoIT OPERATIONS: USER SERVICES - DEPARTMENTAL SUPPORT OVERVIEW

Departmental Support - Annual Contacts

Customer Satisfaction

DOIT OPERATIONS: USER SERVICES - DEPARTMENTAL SUPPORT METRICS

NOTES: *Cost per endpoint methodology updated for December 2021 to eliminate "complexity" as a variable and expand sample size. Gartner includes the costs of voice, peripherals, software and external services which we have not as there are alternative funding models for those items. Prior values are not directly comparable to the updated methodology, and will not be recalculated. Updates will be processed annually.
 **DS Endpoints per technician calculation updated to better align with Gartner definitions for FY2022. Previous years values retained for historical reference. Gartner benchmark includes mobile devices (eg. smartphones), and has not been adjusted to account for our lack of mobile device management. Updated calculation updated finician as a person rather than based on hours worked, and adds 1/4 of Infolab computers as managed endpoints. Calculation updated twice annually. Updated August 2021.

***Survey respondents rate satisfaction on a 7 point scale in response to: 'We value your opinion. How was your experience with us?'

Above Target

-Availability is for wired (not wi-fi) connectivity at each instituation. Availability calculated as total uptime / total time per month. Wide Area Network is considered down when completely disconnected from the system (i.e. both routers down at 4-year schools, the single router down at 2-year schools). Any planned outages are included in the calculations, sometimes making availability appear below commercial standards of 99.9% or 99.99% uptime.

-The 99.9% SLA rate with UW System is for unplanned outages; the figures in this table include all outages – planned or unplanned. SLA faults here (highlighted in RED) may not actually be an SLA agreement fault.

NOTES: Average (mean) network usage includes night and weekend readings of typically much lower traffic. Averages for UW-Madison Campus Internet Access and UW-Madison internet Exchange will likely be lower in summer months than they are during the academic year.

95th percentile usage is a more common industry standard than avg/max/min for measuring utilization; Network Services is working on providing that measure as well in future reports. A peering exchange, such as the Madison Internet Exchange, enables networks to interconnect directly to each other and exchange IP (Internet) traffic. Peering is the exchange between two independent networks for the benefit of both networks.

The target for WAN speeds is a capacity threshold instead of a specified speed to maintain. When 95th percentile speeds reach about 45-55% of capacity, there is an engineering exploration to determine the cause of increased usage and whether increased capacity is warranted.

	Unique Students	3,828	3,461	1,729	4,180	2,887	3,98

	Notes:
22	Kaltura
18	Media Asset: An individual media item uploaded to Kaltura - most often this is a
8	video or audio file, but it could also be an image Time Played: Total amount of time all Kaltura media assets were played during the
	month
20	Avg. Play Time: Time played divided by number of plays
83	Unique Viewers: Students, most often
61	Duration of uploaded media: length (minutes) of new video assests this month
27	Contributors: Persons uploading assests to Kaltura - most often instructors.
	-Total media assets for current month does not equal total media assets from
29	previous month plus new media assets in current month because some user have deleted assets in the meantime
12	Reported numbers of unique viewers is low by an unknown amount of users
13	because Kaltura Mediaspace does not collect unique user data for media
	embedded via iframes or assets that allow public viewers
37	Turnitin
19	Active Classes: The number of classes that had any activity (submissions, marks,
5	assignment creation, new students, etc.) within the month
0	Active Instructors: Like active classes-the number of unique instructors associated with active classes
-	Student Accounts: The total number of student accounts as of end date
68	(cumulative)
51	Instructor Accounts: The total number of instructor accounts as of end date
74	(cumulative)
77	Submissions: Typically text documents in .doc, .pdf, other wordprocesing formats, or plain text
18	ACAR (Advanced Content Authoring and Reporting)
0	Pressbooks: Number of Pressbooks in the UW-Madison instance; each pressbook is a subsite on the UW-Madison instance
5	Storyline 360: Total number of storyline modules in all UW-Madison subsites on
	Grassblade.doit.wisc.edu
3	User: Anyone with an account in Pressbooks (whether as subscriber, editor,
0	administrator, or super-admin)
95	Canvas
92	Active Course: A canvas shell is created for every course offered at UW-Madison. "Active" Canvas courses are those manually activated by an instructor
	Student: Any user enrolled in the canvas course with the "student" role (not
55	instructors or admins)
16	Instructor: Number of Canvas course enrollments with the "instructor" role
48	(predominately actual course instructors, occasionally will include a course
74	coordinator or support staff)
	Atomic Assessments Active Course: Course with Atomic Assessments assignments that have been
96	accessed in date range
45	Instructors: Users with "instructors" role, which may include some number of
00	course administrators, teaching assistants, or other numbers for Atomic
0	Assessments are for Dec 1-23. No use of Atomic Assessments is anticipated Dec
2	24-31. Any unforseen usage will be updated in the January report.

NOTES: * Indicates services in the End of Service Life (EoSL) state that are not yet fully decommissioned. ** Service has a High Risk Data flag set to "Yes-Vendor" - this service contains high-risk data, but is outside of UW control due to being vendor-managed and not included in completion rate *** Completion rate represents the percent of services operated by DoIT that contain high risk data and have audit records attached per quarter.

Q1 = July 1 - Sept 30, Q2 = Oct 1 - Dec 31, Q3 = Jan 1 - Mar 31, Q4 = Apr 1 - June 30

Contents reflect DolT operated Technical Services in the CMDB marked as High Risk at the end of April FY 2022. Deactivated/decommissioned services are not included.Blanks indicate an audit record has not been completed for the service.

Pass (P) - Backups are occurring at least every 28 days, and a test restore can be demonstrated every 90 days.

Fail (F) - Backups are NOT confirmed to be occurring at least every 28 days, and/or a test restore CANNOT be demonstrated to have been done every 90 days.

DOIT OPERATIONS: TECHNICAL NOTES

HD: Walk-in created incidents are considered Help Desk incidents begining in FY20 due to the merger between former Tech Store (Service Desk) and the Help Desk that began on July 1st, 2019.

HD-Overview: Cost per contact FY19 will be used due to a six month minimum to calculate the gartner benchmark. 2018 HDI Benchmarks will be used until the release of 2019 numbers. HD-Benchmark Details: First Contact Resolution for Help Desk User Services has been defined as an incident opened by the Help Desk and resolved by the Help Desk, within one hour of the incident being created.

HD-Ivy: All chats are first handled by the AI, Ivy. If the AI is unable to answer a question or a user requests to speak to an agent, then the chat will be handed off to an available agent. If an agent is not available an email incident is created from the chat and sent to the Help Desk email queue. The color indicates where the chat ended; either with an agent or with the AI. DS-Overview: Total number of endpoints that have been verified via IBM BigFix: within the past 45 days as of 11/5/2019

DS-SLA Response Rate: Priority matrix obtained from WisclT. In Priority 1 cases, an entire department is unable to perform duties and there is no workaround available. Priority 2 cases involve one or multiple users being unable to perform duties without a workaround, or an entire department only able to perform partial duties. Priority 3 cases include an entire department or any number of its users being able to perform duties with a workaround, or one or multiple users being able to only perform partial duties. Priority 4 cases are for deferred cases or monitoring/tracking.

Active & Urgent Vulnerabilities: Number of active vulnerabilities with a severity of 4 or 5

Financial Services:

Average number of Days to Pay: E-reimbursement: Length of time, in days, from point that the requests enter the Financial Services queue to reimbursement payment to the employee. Note: this is a metric measured by campus, so we are using campus average as a point of comparison.

Days from SFS Close to CBS Close is the amount of days from Campus Financial close to DoIT CBS close.

Days from CBS Close to Management Report is the amount of days from DoIT CBS close to the DoIT Manager Report finalization.

Days from SFS Close to Management Report is the amount of days from Campus Financial close to the DolT Manager Report finalization.

Cybersecurity-Cybersecurity Operation Center: Includes the following categories with noted exclusions: Compromised Credentials; Copyright (excl. Campus Network Housing subcategories); CSOC; DNS Block Request; Duo Fraud; e-Discovery; Investigation (excl. Missing Person); Phishing; Suspicious Activity Report (excl. Shadowserver).

DoIT OPERATIONS: TECHNICAL NOTES

Digital Publishing and Printing Services Definitions

Rework: Work that needs to be reprinted due to operator error or miscommunication from internal staff. Average Rework percentage: Derived percentage of total jobs requiring rework. Sales: Monthly revenue from sale of print and print related projects. Jobs: Total number print and print related projects per month. Average on-time percentage by stream: Percentage of projects per production category completed by customer negotiated deadline.

Category Definitions

NetID Account Management: Password resets and NetID change requests Office 365: Support for @wisc.edu email and Microsoft Apps UW C/EX Support: Any incident from a Colleges or Extensions user Referrals: Unsupported services referred to other departments General Departmental Support: Incidents from departmentally supported users BadgIRT: Incidents regarding security disabled accounts Point of Sale (Tech Store): Any incident regarding the Tech Store Campus Network: Connectivity issues to UW-Net and device registration Learn@UW - Canvas Madison: Support to UW-Madison students & staff with Canvas Multi-Factor Authentication (MFA): Support to UW-Madison students, faculty, and staff with the MFA Learn@UW: A suite of centrally-supported technologies for instructional usage; used by instructors and/or students. Learn@UW includes the services reported on the previous page and other learning technologies...

Project Management Office - Portfolio Metrics Definitions

Queued: Project is scheduled with a future start date.

On Hold: Project was active but work has been paused.

Stage Zero - Opportunity Development: Engagement with an Enterprise Architect.

Stage One - Proposed/Intake: Project submission to the intake process; includes days in stage zero technical review.

Stage Two - Prioritization: Project prioritization to determine Now, Next, Later or Never category.

Stage Three - Scheduling: Projects with multiple DoIT units involved present at a scheduling team meeting to identify needed talent and available capacity.

Stage Four - Project Go Live: Project completes a go live preparation checklist with a peer review process.

Stage Five - Project Closure: Project closes the project by completing a closure preparation checklist with a peer review process.

Total Days in Intake: Total number of days project is in stages zero through three.

Total Days in Process: Total number of days project is in all six stages of the Project Portfolio Process.

Major Projects: Major projects include Board of Regent reportable projects, campus wide impact, significant use of resources/talent, crisis response. Major projects follow all stages of the portfolio process.
