

The Task:

Select one (or more) of the following questions.

Answer the question(s) as a small group.

Write your main point on the green sheet provided.

Share your main point with the group in 2 minutes or less

ITC: Questions for Small Group Discussion

1. How can we promote better understanding, collaboration, transparency and trust between campus units (colleges, schools, admin units) and central IT?
2. Thinking about prioritization of fee-based IT services provided to units by DoIT:
 - a. How can we base it on strategic needs that are aligned with the University missions rather than on affordability?
 - b. How can we incorporate local priorities in campus-wide priorities?
3. A question you believe we should be asking and answering. (So, a question of your group's choosing)
