

WISCONSIN
UNIVERSITY OF WISCONSIN-MADISON

Research Technology Advisory Group

Monday, February 17, 2020

1:00-2:00pm

334 Bascom Hall

AGENDA

1. Any announcements/updates?
2. Campus Computing Infrastructure (CCI) Reboot (Tadd Smejkal)
 - a. Historical information. Why first installment of CCI never caught on as a research computing platform. Get feedback from RTAG on what they need to be thinking about going forward. May discuss CPU resources on campus now that storage (ResearchDrive) has been addressed.
3. Upcoming changes to Box contract (Todd Shechter)
 - a. Will be sharing the situations we are facing – increase in costs; and looking for an RTAG sub-committee involvement in charting our path forward. They currently don't have any solutions and need help from research faculty in deciding the path.
