TLTAG Monthly Meeting Minutes  
December 14, 208  
1:00 – 2:30 PM  
159 Education Building  

1. Intro/Welcome
   - Minutes from the TLTAG meeting on November 2, 2018 were approved.
   - Welcome Shirin Malekpour from L&S who will be serving in Lisa Jansen’s role, who will be taking over for Bruno Browning’s role in DTAG.
   - Last IT Portfolio Project Metrics Forum Session on December 19, 2018.

2. Campus Digital Testing (Paul Oliphant)
   - 2 Draft Documents Sent Out
     - **DRAFT – Campus Digitally Testing Initiative**
       - Focuses on how to secure integrity on online exams on campus, testing centers, or remote.
       - Investigate tools that can be plug-ins to Canvas or looking at Unizin recommendations.
     - **DRAFT - Campus Digitally Testing RFP Requirements**
       - Having Vendors tell campus what they can provide as a tool through answering questions and assess if tool will meet campus needs.
       - Making sure there is a rubric created to measure questions.
   - Timeline –
     - Project is moving fast
     - Feedback about the DRAFT from TLTAG is due before the New Year.
     - 2 Project Intake Proposals
       - Digital Delivery Tool
       - Contact Delivery Tool
     - Have RFP done in Spring 2019
     - Have a Tool(s) selected by late Spring 2019
     - Have courses start piloting tool for Fall 2019.
   - Student Integration Plan –
     - DCS will take this to Summer Term to put in front of Student Governance Group.
     - Present to DoIT Student Group.
   - Communication Plan –
     - TLTAG motioned and approved the Communication of the Draft – Campus Digitally Testing Initiative Document with the modification of adding into scenario 2 of Unizin tools.

3. Principles for High Quality Online Course and Programs (Steve Cramer)
   - **DRAFT – UW-Madison Digital Education Principles for High-Quality Online Courses and Programs**
     - Taken to the Teaching Advisory Group, UC, UCAA, UPC, EI.
     - Document is looking to find principles that fulfill UW-Madison Mission across the state through Online Education that are courses fully online.
     - Important Principles to have in Online Courses –
       - Interactions with Instructors
       - Cohort learning
     - Creating process to sort through what course would be able to intergrade to an online course.
     - Currently the UW-Madison offers 25 Degree programs online.
     - Looking at UW-Madison Process to make sure online course are set up to offer the best experience, cybersecurity controls are in place, and management controls.
     - Importance in understanding student experience in finding courses, signing up courses, getting books, and taking courses.
       - Multiple tools students use for the full experience.
4. **Cloud Strategy (Joe Johnson)**
   - **Cloud Strategy Presentation** –
     - Strategy will be presented at all TAG groups and will be taken to the December ITC meeting to get endorsement.
     - There is alignment with Proposed Cloud Strategy and Campus Strategy.
   - Cloud is more defined as a tool that assist in delivering IT Services.
   - Proposed Cloud Strategy is looking to have a Cloud Strategy in place to help those on campus who want to move to the cloud.
     - Not forcing people to move over to the cloud.
   - Cloud Foundation Teams (Tiger Teams) to move things to the cloud, includes but not limited to -
     - Billing represented
     - Cybersecurity Team member
     - Administrative support
   - Any feedback regarding the Proposed Cloud Strategy should be sent to Joe Johnson (joe.c.johnson@wisc.edu)
