December 20, 2020 - All lists migrated to new solutions
MIGRATION BUTTON PROCESS

The application that runs the WiscList service will soon be decommissioned and our WiscList services will be migrating to other existing services. We recommend you migrate to 0365 or Google Groups as a replacement for standard lists. This simple quiz will help you determine which option better fits your needs.

Many users will choose Google Groups because it provides most of the same features as WiscList. To migrate your list to Google Groups, click the button below, or visit the KB for detailed information on this process.
